PROFESSIONAL SUMMARY

Full Stack Developer with 6 months of professional experience and 1+ years of hands-on experience building scalable web applications using React, Next.js, Node.js, NestJS, TypeScript, Python, Django, MySQL, MongoDB and PostgreSQL. Experienced in developing end-to-end applications, integrating REST APIs, and building AI-powered solutions using FastAPI, LangChain, and Retrieval-Augmented Generation (RAG). Passionate about writing clean, maintainable code and continuously learning modern technologies to build impactful products.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Redux Toolkit
Backend: Node.js, NestJS, Express.js, Django, FastAPI, Django REST Framework
Databases: PostgreSQL, MongoDB, MySQL, Prisma ORM, Vector Databases
AI & LLM: LangChain, Retrieval-Augmented Generation (RAG), Ollama, Vector Embeddings
Tools & Ops: Git, GitHub, Docker, Socket.io, REST APIs, OAuth, Postman, Vercel

PROFESSIONAL EXPERIENCE

WhatBytes — Frontend Developer Intern

Jul 2025 – Jan 2026

- Built and deployed user-friendly UI features using React and Next.js, speeding up product launches by 25%
- Connected secure REST APIs and optimized state management, reducing data transfer delay by 15%
- Improved client-side code and asset caching, which boosted web performance scores by 30% and ensured smooth loading across browsers.
- Developed core features for a high-performance LinkedIn automation extension to help automate user outreach and lead generation.

KEY PROJECTS

Trackr — SaaS Project Management Platform

Next.js • NestJS • PostgreSQL • Prisma • TS

Engineered a high-throughput multi-tenant workspace orchestrating seamless collaboration for teams. Developed robust session handlers and strict Role-Based Access Control (RBAC), mapping underlying data pools with Prisma ORM to process tasks with sub-100ms API response latency

Links: <https://github.com/gritik418/trackr-frontend> | <https://github.com/gritik418/trackr-backend>

Huddle — Real-Time Social Media Platform

Next.js • Node.js • MongoDB • Socket.io • TS

Designed a real-time social platform servicing thousands of events. Built low-overhead bi-directional transport streams via Socket.io to route instant direct messages, reducing data delivery sync frames to sub-50ms thresholds across active user connections

Link: <https://huddle-app-silk.vercel.app/>

Portfolio AI Assistant

Next.js • Python • FastAPI • LangChain • RAG • Ollama

Developed an advanced un-networked intelligent parser powered by Retrieval-Augmented Generation (RAG). Formulated clean document-chunking tokenizers and vector search spaces, optimizing query contextualization frameworks to drop token generation latency down to 1.2 seconds via local Ollama LLM execution

Link: <https://github.com/gritik418/rag-portfolio-bot>

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Sunder Deep Group of Institutions

Class XII (CBSE)

Score: 92%

Year of Completion: 2022
